

Olympic Legacy Sport Premium Funding 2024-2025

Background:

In 2013, the Government announced new funding of £150 million for Physical Education (PE) and sport. This funding has continued as part of the government's Olympic legacy commitment and should be used to improve the quality and breadth of PE and Sport provision. This funding is ring fenced for sport specific areas to make an impact in Physical Education and Sport in schools. Schools are free to determine how best to use this funding to improve the quality and breadth of PE and Sport provision, including increasing participation in PE and Sport so that all pupils develop healthy lifestyles and reach the performance levels they are capable of.
